

Elektronisk anbudsprosess- nye formater

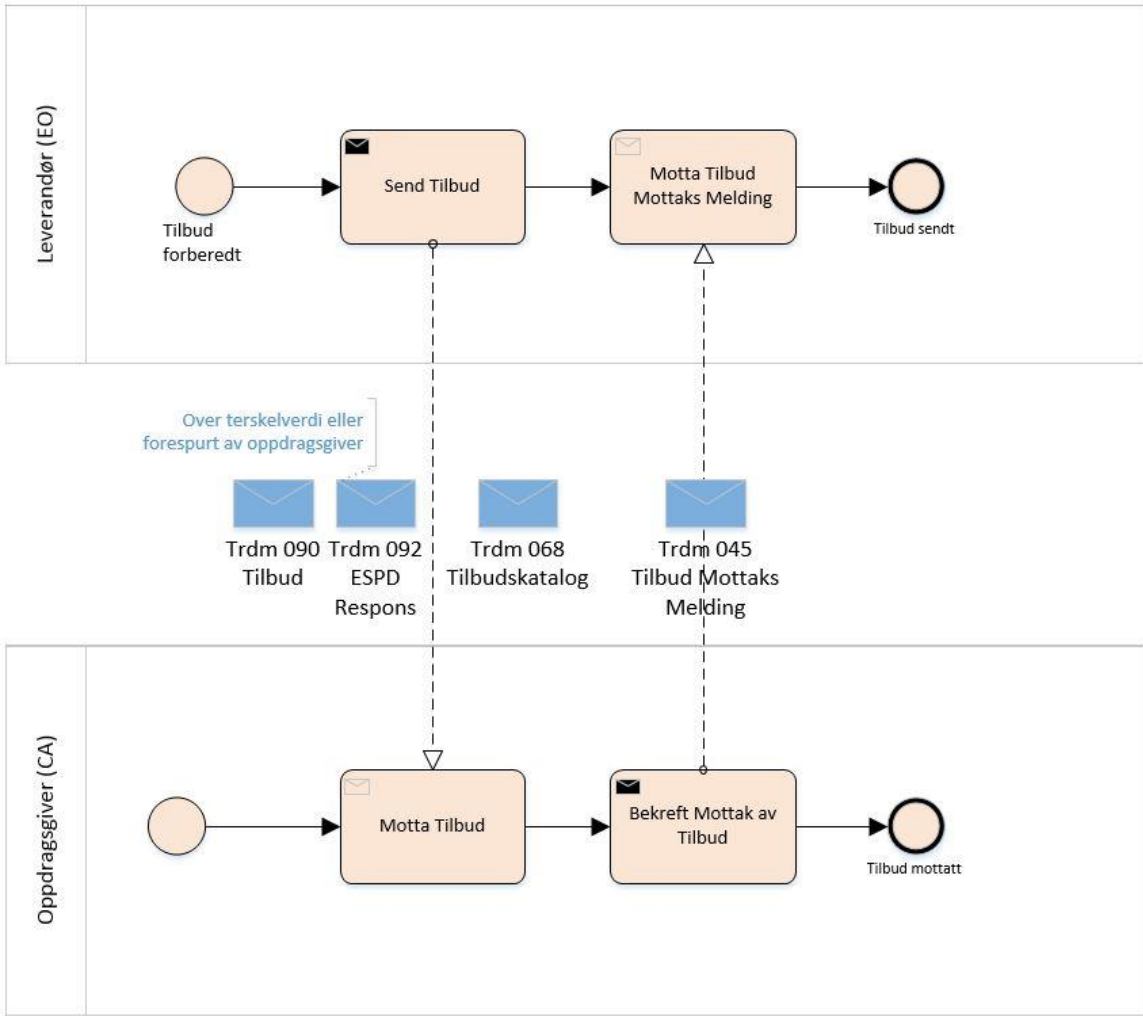

EHF Call for Tender

Det jobbes nå med pre-award catalogue request = EHF forespørselskatalog i CEN TC 440

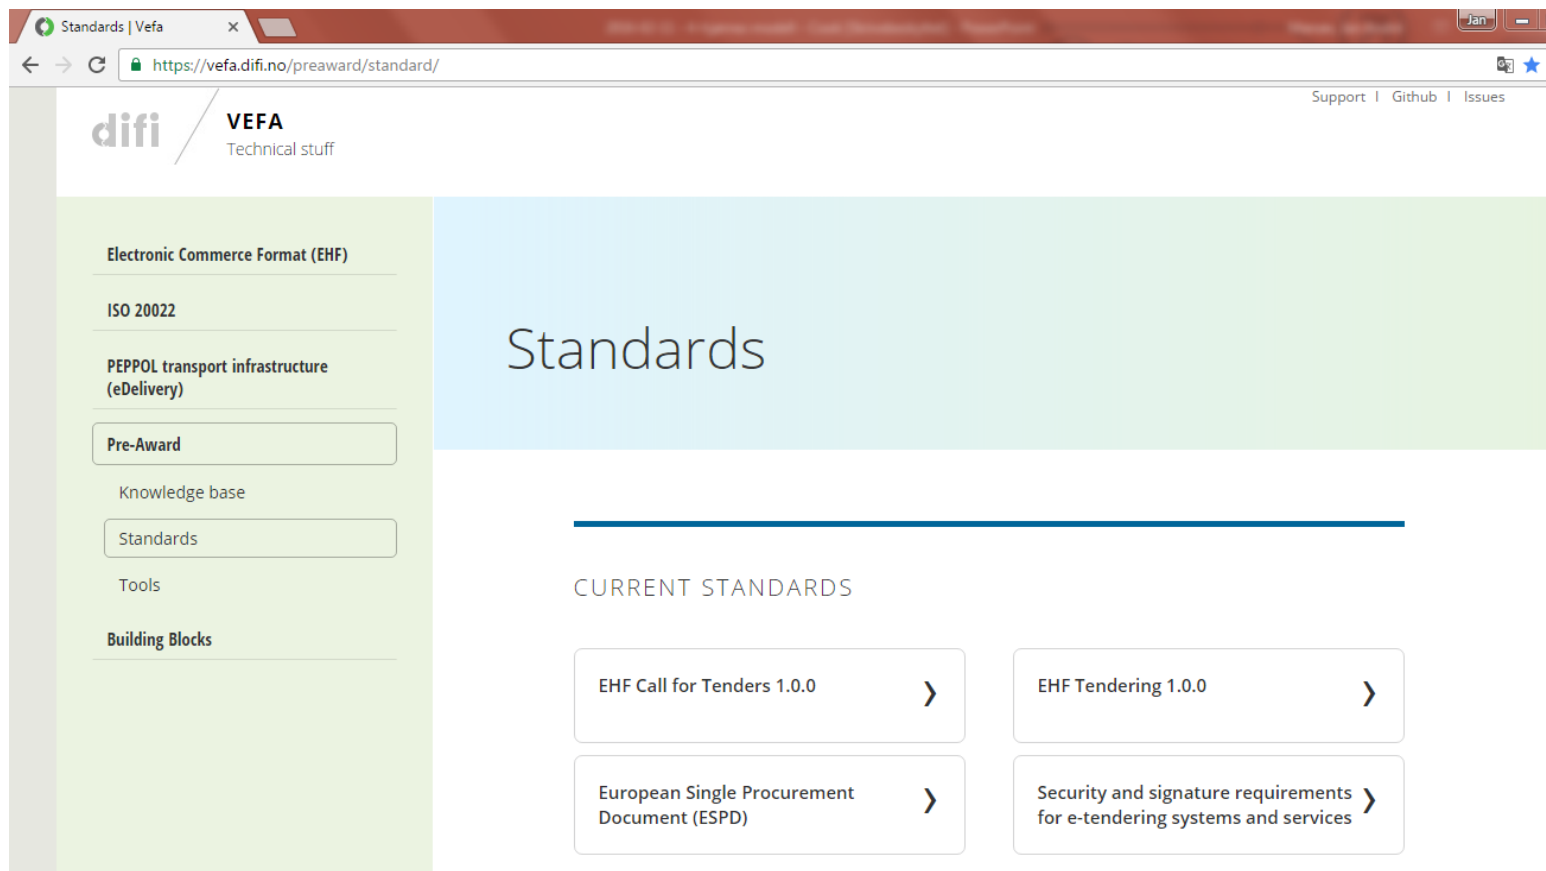

EHF Tendering (Tilbudsinnslevering)

Veiledere finner dere på

<https://vefa.difi.no/preaward/standard/>

The screenshot shows a web browser window with the URL <https://vefa.difi.no/preaward/standard/>. The page header includes the difi logo and 'VEFA Technical stuff'. A navigation menu on the left lists: Electronic Commerce Format (EHF), ISO 20022, PEPPOL transport infrastructure (eDelivery), Pre-Award (highlighted), Knowledge base, Standards, Tools, and Building Blocks. The main content area features a large 'Standards' heading and a section titled 'CURRENT STANDARDS' with four cards: 'EHF Call for Tenders 1.0.0', 'EHF Tendering 1.0.0', 'European Single Procurement Document (ESPD)', and 'Security and signature requirements for e-tendering systems and services'. Each card has a right-pointing chevron icon.
